WEATHER OF CONCERN

Weather of Concern

- Low clouds in the wake of a cold frontal passage is still plaguing the eastern half of the San Joaquin Valley, adjacent foothills and the north facing slopes of the Tehachapi mountains. Drizzle and areas of dense fog will persist in the upslope regions of Central California.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

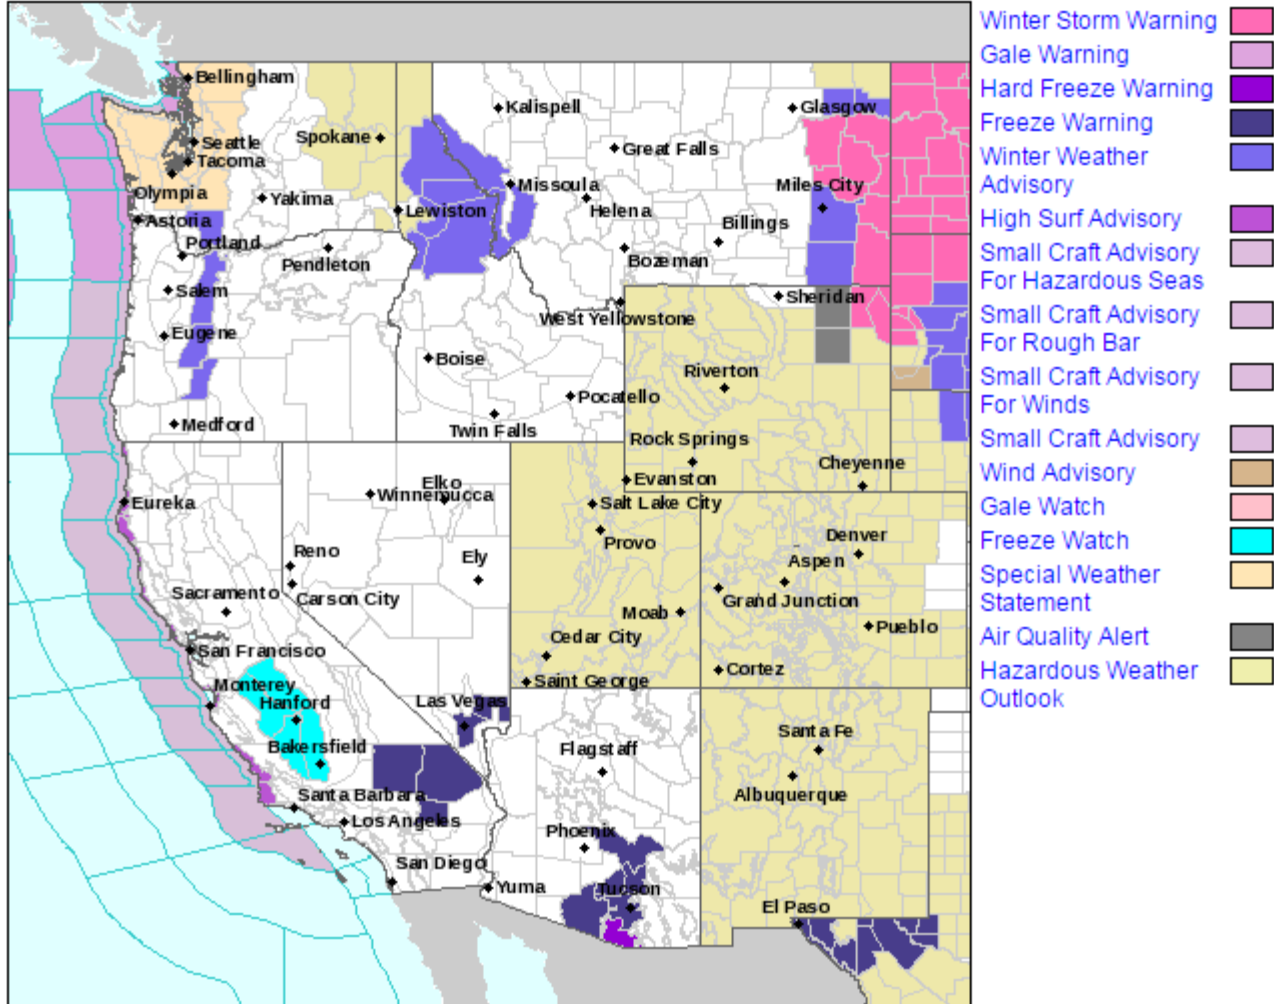

A series of minor weather systems will keep an unsettled weather pattern active over the region for the next 7 days. A bit more, generally light, precipitation can be expected at times, mainly across the northern and eastern mountain areas of the region. High pressure and dry weather will be over the region today, but after midnight one of those weather systems will move ashore with some precipitation for the coastal counties and the northern and eastern mountains Wednesday. Stronger high pressure and dry, warmer weather for all areas will follow that the latter half of the week, although there are likely to be some high clouds in that pattern as well. Yet another weather system is expected to drop south across the region on Sunday with most of its precipitation likely to be in the northern half of the region. Some breezy north to east winds are expected to develop late Wednesday night and last into Thursday evening for the Sacramento Valley, surrounding foothills and the western slopes/drainages of the Cascades and northern Sierra. Lighter north to east winds are expected to prevail elsewhere at that time and in all areas Friday and Saturday. Temperatures will be around seasonably cool values for the most part, although Saturday will likely be rather mild with many areas 5-8 degrees above normal. That will put the warmest inland locations into the lower 60s.

SOUTHERN CALIFORNIA

Surface high pressure over northern Nevada will bring north to east winds of 15 to 25 mph with gusts to 40 mph to the mountains and below the canyons and passes of Southern California through this afternoon. A weak ridge of high pressure aloft over California will bring near normal temperatures through Wednesday with 40s to low 50s across the mountains, 50s to low 60s in the valleys of Central California, and 60s to low 70s in the valleys of Southern California. Minimum humidity will be mainly between 15% and 30% away from the San Joaquin Valley and its surrounding foothills through Wednesday. A trough will drop into the Great Basin and then into the Desert Southwest from Canada bringing cooler temperatures Thursday and Friday. Humidity will increase to above 30% Thursday as the trough remains to the north of the region and then drop back down to 15% to 30% Friday as the trough drops to the south. A ridge of high pressure will build into the region from the Pacific bringing significant warming and dropping minimum humidity in the single digits and teens away from the Central Valley this weekend. North to northeast winds of 20 to 40 mph with gusts to 60 mph will spread over much of Southern California Friday morning through Saturday evening.

CAL OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2016-LAW-28696 , 11/28/16, 1745 hours:** The Humboldt County Sheriff's Office (HCSO) requested assistance to clear U.S. Forest Service Route 1 between Hwy 299 and Hwy 36 to gain access to a female subject who was reportedly trapped by snow drifts in her 5th wheel, approximately 1/4 mile off Route 1, 20 miles in from Hwy 299. This mission number is to task Cal Trans to provide the necessary snow plow to allow the SO access to perform the SAR mission. **Update: 11/28/16, 1900 hours,** HCSO advised that the Cal Trans snow plow was not operational. PG&E was contacted directly and assisted in opening the road. They began their search for the missing person (MP). **Update: 11/29/16, 0755 hours,** HCSO advised they were unable to locate the MP and will continue their search today. HCSO is investigating the possibility that the MP was part of a group of marijuana 'trimmers' that became snow bound in the same area over the weekend and had to be assisted out. They would like to keep the mission open as there is a possibility of soliciting Cal Trans' help today, along with an airship from the Coast Guard. **Mission Ongoing.**

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2016-Coastal-26848:** Caltrans - Hazmat Manager for DROC for the Clayton Fire in Lake County. On Scene 09/28/16 - 12/16/16. **Mission Ongoing.**
- **2016-Coastal-26842:** CDFW - Oil Spill Prevention Specialist for the Clayton Fire in Lake County. To be On Scene 10/03/16 - 12/16/16. **Mission Ongoing.**
- **2016-Coastal-26477:** Cal Recycle debris removal assistance requested for the Clayton Fire in Lake County; on scene through Mid-December. **Mission Ongoing.**
- **2016-Coastal-26412:** DTSC clean up assistance requested for the Clayton Fire in Lake County; on scene through Mid-December. **Mission Ongoing.**
- **2016-Southern-25043:** California Department of Public Health to conduct housing and food inspections for detention facilities through 12/31/16. **Mission Ongoing.**
- **2016-Southern-25037:** California Division of Drinking Water to conduct surface water inspections for 11 water systems and train new hires through 12/31/16. **Mission Ongoing.**
- **2016-SOC-24742:** Hazardous Waste Task Force to segregate, collect, and package hazardous waste at the 250+ destroyed and damaged structures in the Erskine Fire burn area. This is expected to be in place through December 2016. **Mission Ongoing.**
- **2016-IREOC-21748:** Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWs weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**
